ePlus inc. Investor Presentation

+ May 2024

Safe Harbor Statement

This investor presentation contains certain statements that are, or may be deemed to be, “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Statements in this investor presentation that are not historical facts may be deemed to be “forward-looking statements,” and include the anticipated growth of our company. Forward-looking statements can be identified by such words and phrases as “believe(s),” “outlook,” “looking ahead,” “anticipate(s),” “expect(s),” “intend(s),” “estimate(s),” “may,” “will,” “should,” “continue” and similar expressions, comparable terminology or the negative thereof. Actual and anticipated future results may vary materially due to certain risks and uncertainties, including, without limitation, national and international political instability fostering uncertainty and volatility in the global economy including exposure to fluctuation in foreign currency rates, interest rates, and inflation, including increases in our costs and our ability to increase prices to our customers which may result in adverse changes in our gross profit; significant adverse changes in, reductions in, or loss of one or more of our larger volume customers or vendors; a possible decrease in the capital spending budgets of our customers or a decrease in purchases from us; reliance on third-parties to perform some of our service obligations to our customers, and the reliance on a small number of key vendors in our supply chain with whom we do not have long-term supply agreements, guaranteed price agreements, or assurance of stock availability; our ability to remain secure during a cybersecurity attack, including both disruptions in our or our vendors’ Information Technology (“IT”) systems and data and audio communication networks; our ability to secure our own and our customers’ electronic and other confidential information, while maintaining compliance with evolving data privacy and regulatory laws and regulations; ongoing remote work trends, and the increase in cybersecurity attacks that have occurred while employees work remotely and our ability to adequately train our personnel to prevent a cyber event; the possibility of a reduction of vendor incentives provided to us; our dependence on key personnel to maintain certain customer relationships, and our ability to hire, train, and retain sufficient qualified personnel; maintaining and increasing advanced professional services by recruiting and retaining highly skilled, competent personnel, and vendor certifications; risks relating to use or capabilities of artificial intelligence (“AI”) including social and ethical risks; our ability to manage a diverse product set of solutions, including AI products and services, in highly competitive markets with a number of key vendors; our dependency on continued innovations in hardware, software, and services offerings, including AI products and services, by our vendors and our ability to partner with them; changes in the IT industry and/or rapid changes in product offerings, including the proliferation of the cloud, infrastructure as a service, software as a service, platform as a service and AI; our ability to increase the total number of customers using integrated solutions by up-selling within our customer base and gaining new customers; our ability to increase the total number of customers who use our managed services and professional services and continuing to enhance our managed services offerings to remain competitive in the marketplace; our ability to perform professional and managed services competently, in accordance with professional standards, and free from errors or omissions; rising interest rates or the loss of key lenders or the constricting of credit markets; loss of our credit facility or credit lines with our vendors may restrict our current and future operations; domestic and international economic regulations uncertainty (e.g., tariffs, sanctions, and trade agreements); supply chain issues, including a shortage of IT products, may increase our costs or cause a delay in fulfilling customer orders, or increase our need for working capital, or completing professional services, or purchasing IT products or services needed to support our internal infrastructure or operations, resulting in an adverse impact on our financial results; exposure to changes in, interpretations of, or enforcement trends in, and customer and vendor actions in anticipation of or response to, legislation and regulatory matters; our ability to identify acquisition candidates, or perform sufficient due diligence prior to completing an acquisition, or failure to integrate a completed acquisition may affect our earnings; our contracts may not be adequate to protect us as we are subject to audits which we may not pass, and our professional and liability insurance policies coverage may be insufficient to cover a claim; a natural disaster or other adverse event at one of our primary configuration centers, data centers, or a third-party provider location could negatively impact our business; failure to comply with public sector contracts, or applicable laws or regulations; our ability to raise capital, maintain or increase as needed our lines of credit with vendors or floor planning facility, obtain debt for our financing transactions, or the effect of those changes on our common stock price; significant and rapid inflation may cause price, wage, and interest rate increases, as well as increases in operating costs that may impact the arrangements that have pricing commitments over the term of the agreement; we may not continue to repurchase any of our common stock under our share repurchase program; our ability to implement comprehensive plans for the integration of sales forces, cost containment, asset rationalization, systems integration, and other key strategies; fluctuations in foreign currency exchange rates may impact our results of operation and financial position; our ability to maintain our proprietary software and update our technology infrastructure to remain competitive in the marketplace; and our ability to protect our intellectual property rights and successfully defend any challenges to the validity of our patents or allegations that we are infringing upon any third-party patents, and the costs associated with those actions, and, when appropriate, the costs associated with licensing required technology; and other risks or uncertainties detailed in our Annual Report on Form 10-K for the fiscal year ended March 31, 2024 (“2024 Annual Report”), and other reports filed with the Securities and Exchange Commission.

The Company cannot predict with reasonable certainty and without unreasonable effort, the ultimate outcome of unusual gains and losses, the occurrence of matters creating GAAP tax impacts, fluctuations in interest expense and share-based compensation, and acquisition-related expenses. These items are uncertain, depend on various factors, and could be material to the Company’s results computed in accordance with GAAP. Accordingly, the Company is unable to provide a reconciliation of GAAP net earnings to adjusted EBITDA and adjusted EBITDA margin for the full year 2025 forecast.

We wish to caution you that these factors could affect our financial performance and could cause actual results for future periods to differ materially from any opinions or statements expressed with respect to future periods in this investor presentation. All information set forth in this investor presentation is current as of the date on the cover of this presentation, and ePlus undertakes no duty or obligation to update this information either as a result of new information, future events or otherwise, except as required by applicable U.S. securities law.

Growing Global Capabilities

- 
- + 30+ locations serving customers around the world
 - + Integration centers strategically placed in the U.S.
 - + Resources and teams to implement globally and locally

Comprehensive Set of Solutions & Services

Key Strategic Focus Areas

Cloud: Journey to Modernization

Modernize data center infrastructures, extend capabilities, accelerate migrations, and optimize cloud platforms to transform businesses.

Security: Compromise Nothing

Go Beyond managing threats by building an infrastructure that embeds security into every crevice of a technological environment.

Artificial Intelligence: Ignite

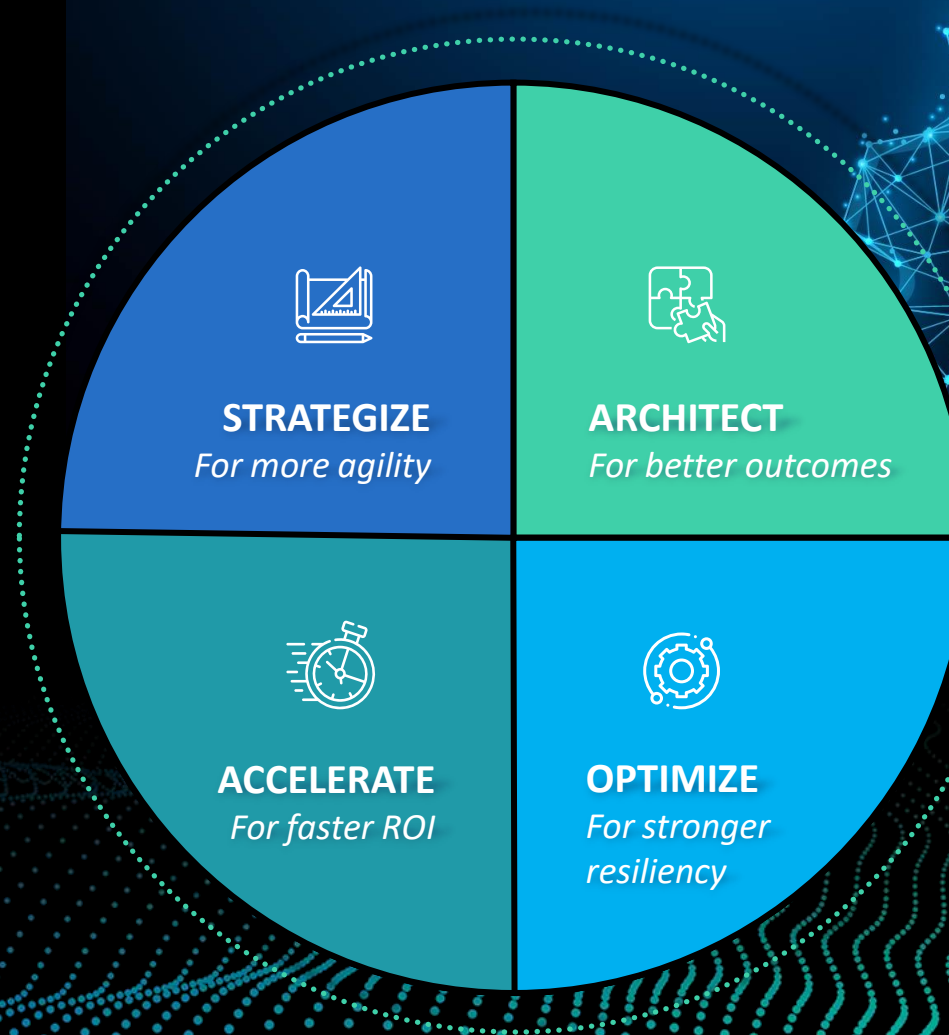

Assess, enable, secure, implement and amplify the use of AI technologies to accelerate business outcomes.

SERVICES

PROFESSIONAL | MANAGED | ADVISORY & CONSULTING | STRATEGIC TECHNOLOGY STAFFING | LIFECYCLE CX SOLUTIONS | SOFTWARE LICENSE OPTIMIZATION

Broad Portfolio of ePlus Services

Our services are designed with CX in mind, offering options ranging from consultative to managed, that help customers realize the full value of their technology investments from design through implementation.

- + New customers, data center, cloud and services focus

Customer Experience Across Any Industry

Percentages are based on net sales during the twelve months ended March 31, 2024.

ePlus in Action

CLOUD

Children's Hospital: Cloud Disaster Recovery

Challenge: Current disaster recovery solution was unable to meet the Recovery Point Objectives (RPOs) and Recovery Time Objectives (RTOs) for critical patient care systems.

Solution: ePlus Cloud Services

Business Outcome: Disaster Recovery to AWS with a consumption-based cost model, lowered RPOs and RTOs to meet business requirements, and increased ability to recover from ransomware.

SECURITY

Industrial Manufacturing: vCISO

Challenge: Significant security-related audit requirements arose without sufficient internal support resources to put policies or controls in place, remediate issues or maintain posture.

Solution: ePlus vCISO Security Advisory Services

Business Outcomes: Successfully demonstrated a maturing & scalable security posture. Remediated all defined vulnerabilities and established controls roadmap to enable continued diligence and ongoing security posture maturity.

SERVICES

Healthcare: Storage as a Service

Challenge: Digital pathology project scanning 1M+ physical images to enable real-time access and improved patient outcomes.

Solution: ePlus Storage-as-a-Service (STaaS)

Business Outcomes: Low upfront investment, transparent predictable cost model and financial-backed SLAs reduced risk around capacity management, availability and performance

DATA CENTER

Financial Organization: DC Migration and Modernization

- **Challenge:** Data center migration from traditional to COLO while modernizing and improving security at the edge.
- **Solution:** Security, Check Point Maestro Firewalls and Infinity ELA
- **Business Outcomes:** Accelerated the move to a COLO facility in a flexible and secure manner. Greater visibility on who and what is traversing the edge as well as locking down access more efficiently.

Customer Innovation Center

Elaine Marion
Chief Financial Officer

Strong Financial Results

- + Operations are conducted through two businesses. The technology business sells information technology products, software and services, while the financing business provides lease and financing solutions.
- + The majority of our net sales are derived from our technology business, representing 98% of revenues in FY24.
- + From FY20 to FY24, net sales and gross billings have increased at a compound annual rate of 9% and 11%, respectively.

FYE March 31

Net Sales and Gross Billings (\$mm)

Strong Financial Results

- + Professional services include advanced professional services, staff augmentation, project management services, cloud consulting services and security services.
- + Managed services include advanced managed services, service desk, storage-as-a-service, cloud hosted services, cloud managed services and managed security services.
- + From FY20 to FY24, total service revenue has increased at a compound annual rate of 11% and grew from 12.2% of consolidated net sales in FY20 to 13.1% in FY24.
- + Gross profit from professional services and managed services increased at a compound annual rate of 4% and 30%, respectively.

FYE March 31

Strong Financial Results

- + Consolidated gross profit increased at a compounded annual rate of 9% from FY20 to FY24. Technology business represented 92% of our total gross profit in FY24.
- + Consolidated gross margin has increased from 24.6% in FY20 to 24.8% in FY24.
- + Technology business gross margin has increased from 22.3% in FY20 to 23.4% in FY24, as services revenue continued to expand, and a larger portion of sales were recognized on a net basis.

FYE March 31

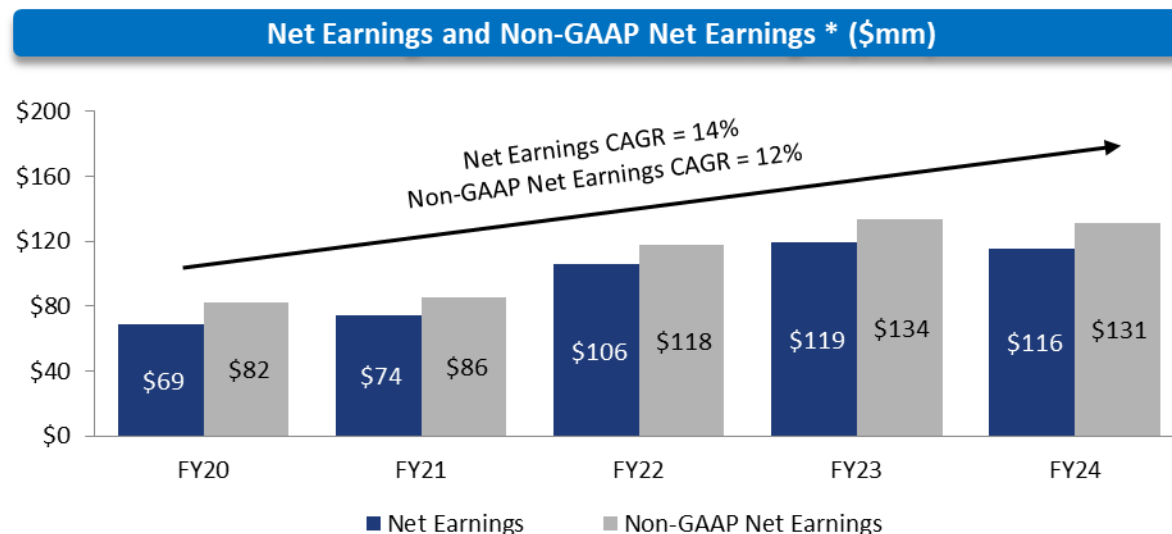

Strong Financial Results

- + From FY20 to FY24, net earnings and diluted EPS increased at a compounded annual rate of 14% as a result of focusing on gross profit growth and cost management.
- + Non-GAAP EPS increased at a compounded annual rate of 13% from FY20 to FY24.
- + Non-GAAP EPS excludes other income (expense), share based compensation, and acquisition and integration expenses, and the related tax effects.

* See Non-GAAP Financial Information. EPS and non-GAAP EPS are on a diluted basis and have been retroactively adjusted to reflect the two-for-one stock split on December 13, 2021.

FYE March 31

Strong Financial Results

- + Adjusted EBITDA represents net earnings before interest expense, depreciation and amortization, share based compensation, acquisition and integration expenses, provision for income taxes, and other income. Interest on notes payable and depreciation expense presented within cost of sales represent operating expenses of financing segment, as such they are not added back to net earnings.
- + From FY20 to FY24, adjusted EBITDA increased at a compounded annual rate of 12%.
- + Adjusted EBITDA margin increased from 7.5% to 8.6% from FY20 to FY24.

FYE March 31

* See Non-GAAP Financial Information

Growing Customer Facing Personnel

- + Acquiring consultative sales professionals to bring successful business outcomes to our customers.
- + Focused on growing engineering talent in cloud, security, AI, and digital infrastructure.
- + Customer facing personnel increased by 264 from FY20 to FY24, which represented 82% of the total increase in headcount.
- + Leveraging our operational infrastructure as we expand.

Employee Headcount Growth by Function

Strong Balance Sheet

- + \$253 million in cash and equivalents
- + Financing portfolio of \$182 million, representing investments in leases and notes
- + Portfolio monetization can be utilized to raise additional cash
- + \$500 million credit limit with Wells Fargo Commercial Distribution Finance, LLC (WFCDF)
- + ROIC 12.1% for the twelve months ended March 31, 2024¹
