

# Customer First. Services Led. Results Driven.

Transformative Technology  
Solutions and "As-a-Service"  
Options

Flexible, Extended and  
Customized Payment  
Solutions

Collaborative and Long-Standing  
Partnerships with Industry Leading  
Technology Providers

Every technology investment starts with a "why". Whether to become more efficient, better manage costs, enable new revenue streams, enhance productivity by automating manual operations or shore up security in the wake of a discovered vulnerability, there are too many "whys" to count. But each one of them has the same answer to "how" these things are achieved: ePlus. Whatever the reason, your why is our way.

**1990:** Year Founded

**25+:** Years on NASDAQ

**30+:** Locations serving the US, UK,  
Europe & Asia-Pacific

**24x7x365:** Support from dedicated  
engineers and certified bench of experts

**3:** Integration Centers

**4,300:** Global Customers

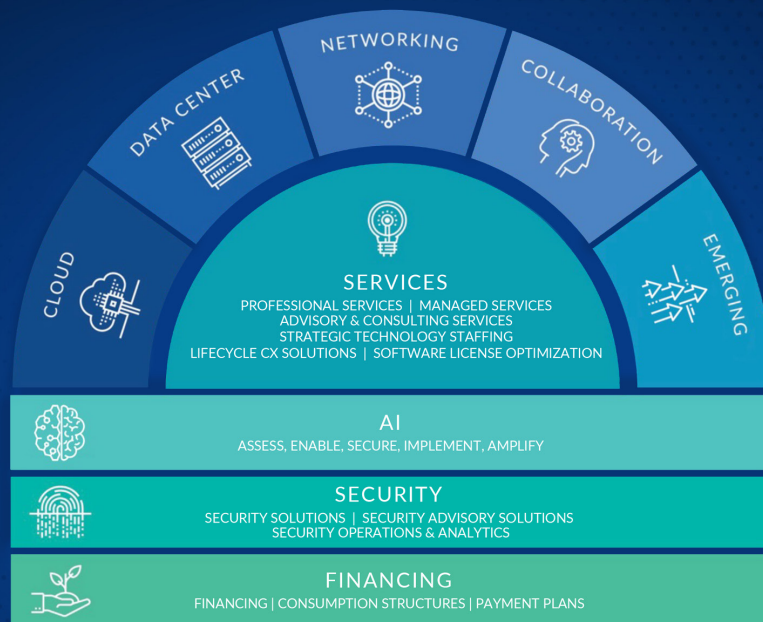

**5,500+:** Certifications and accreditations  
carried by ePlus staff from the top IT  
manufacturers in the world

## Why ePlus?

ePlus helps you understand the opportunities and challenges that come with the technology you already have, as well as the ones you've got your eye on. It is our way to deep dive into your world, understand your needs and work closely with you to secure the solutions or services that best match your business requirements and budget. It is our way to comprehensively understand the latest technologies from industry leaders and explain them in a way that will allow you to make educated, informed and productive decisions that yield results more quickly. It is our way to put your desired outcomes, wants and your wishes at the core of everything we do. We harness the inherent knowledge that comes with our 30+ years in the business on your behalf, born of an innate understanding of market dynamics that change fast and regularly.

## Comprehensive Solutions and Services

Our customers are at the core of every decision, every investment and every one of our offerings. Our solutions portfolio is designed, and continues to grow, with our customers' desired business outcomes in mind.

**ARTIFICIAL INTELLIGENCE** – Unlock the full potential of AI with guidance at any stage of the journey, from assessing readiness, defining use cases, deciding to build or consume, and ensuing a successful proof of concept to design, implementation, and management.

**CLOUD & DATA CENTER** – Modernize a data center infrastructure, extend capabilities to cloud, accelerate cloud migrations or optimize cloud platforms (and spend) to meet dynamic and evolving business needs.

**SECURITY** – Ensure security and reliability by design with cutting edge solutions, tools, intelligence and managed services that help diagnose, predict, map, secure and protect your environment to compromise nothing.

**NETWORKING** – Design and deploy next-generation enterprise and service provider networks to ensure that all domains are supported with high-performing, fault-tolerant, secure, intelligent and application-aware solutions.

**COLLABORATION** – Fully integrated into existing business tools and processes, modern collaboration solutions accelerate workplace/workspace transformation, enhance employee and customer experiences and ensure secure interactions with predictable cost models.

**SERVICES** – Maximize return on IT investments, facilitate implementations and enhance technology performance with consultative, advisory and managed services.

**FINANCING AND CONSUMPTION MODELS** – Boost investment power by aligning technology and payment solutions to provide cost predictability, flexible contract terms and fast, easy access to hardware, software and services.

When we say that “your why is our way,” we mean it, and the proof is our 30+ years of success and experience with thousands of happy customers. Whatever the technology, we have the knowledge, experience, flexibility, creativity and commitment to excellence that will help you achieve more.
