

UCS Director Foundation (Non-ACI)

Course ID: ECSUCSDNA2D

Course Time:
2 Days

Course Description

This two-day hands-on course covers design, implementation, operation, and advanced configuration of Cisco UCS Director, and is designed to serve the needs of engineers seeking to understand the capabilities of UCS Director from a pre- and post-deployment perspective.

Learning Objectives

After this course you should be able to understand:

- + UCS Director Architecture
- + UCS Director Setup and Configuration
- + Discovery and Catalog Creation
- + Self Service Provisioning
- + Application Containers

Who Should Attend

- + Data Center Architects
- + Cloud Infrastructure Architects
- + Network Engineers
- + System Administrators
- + Storage Administrators
- + Engineers Requiring Advanced Configuration Skills

Prerequisites

- + Understanding of server design and architecture
- + Familiarity with Cisco UCS
- + Familiarity with Ethernet and TCP/IP
- + Familiarity with server virtualization
- + Familiarity with storage concepts

Course Content (continued on next page)

Module 1: Introduction

Lesson 1: Overview

- + Data Center Challenges
- + Cloud Layer Overview
- + UCSD Overview
- + Support Matrix
- + Management Features

Module 2: UCSD Components

Lesson 1: Architecture

- + UCSD Architecture
- + BMA Architecture
- + Deployment Models

UCS Director Foundation (Non-ACI)

(2 Days)

Course Content

Module 3: UCSD

Deployment

Lesson 1: Deployment

- + UCSD Installation
- + OVF Deployments
- + UCSD Shell Admin
- + UCSD – BMA Configuration

Lesson 2: Global System Settings

- + Licensing
- + Mail Setup
- + System Parameters
- + Authentication Preferences
- + Support Information

Lesson 3: Site and POD Management

Lab 1: UCSD and BMA Installation

Module 4: UCSD

Infrastructure Elements Management

Lesson 1: Discovery

- + Discovery Overview
- + Virtual Infrastructure Discovery
- + Physical Infrastructure Discovery

Lab 2: Discovery

Lab 3: UI Familiarization

Module 5: UCSD Design

Lesson 1: Policies

- + Computing
- + Network
- + Storage
- + Service Delivery

Lesson 2: User Groups

- + Group Budget Policy
- + Resource Limits

Lesson 3: Users

- + User Roles
- + Manage User Profiles

Lesson 4: Virtual Data Center (vDC)

Lesson 5: Catalog

Lab 4: Services Design

Lab 5: Catalog

Module 6: Deploy

Lesson 1: Deploy

- + Self Service Provisioning
- + Service Requests

Lab 6: Self Service Portal

Module 7: Orchestration

Lesson 1: Orchestration

- + Tasks and Workflows
- + Workflow Templates

Lab 7: Advanced Catalog

- + Advanced Catalog
- + Workflow Designer

Lab 8: Workflow Design

Module 8: Operate

Lesson 1: Operate

- + Chargeback
- + Reporting
- + Building custom reports using the report builder

Module 9: Application Containers

Lesson 1: Overview

Understanding Application Containers

Lab 9: Setting up Application Containers with a Linux firewall
